Heat system	Pre/Post Heater(Can be control separately)	
Software	RIIN	
Dimension	DTF Printer: Machine:1719*640*1399mm, Package:1875*950*725mm	
	Powder Shaker Machine : Machine:2305*1092*1105mm, Package:2400*1120*1136mm	
Power	DTF Printer	Powder Shaker Machine
	1KW	7.9KW

# Powder Shaker Machine

**Drying System on Top**  
 ☛ Temperature adjustable.

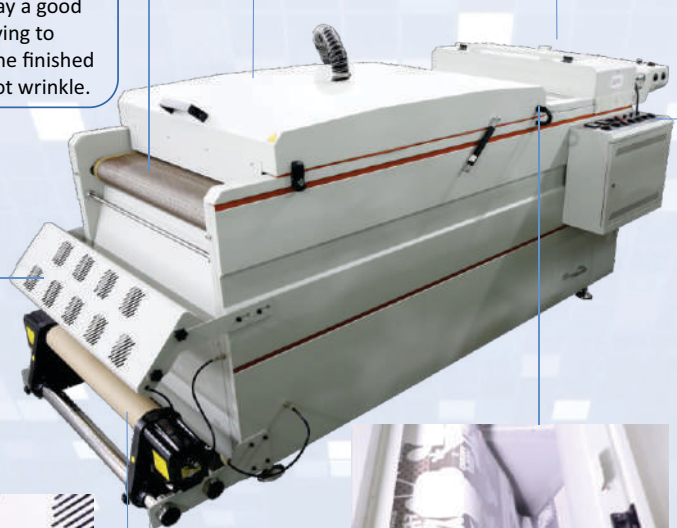

**Belt Conveyer**  
 ☛ Adjustable speed.  
 Suction can play a good role during drying to ensure that the finished product will not wrinkle.

**Openable Powder Cover**  
 ☛ Easily to facilitate observation of the powder condition.

**Quantitative dusting**  
 ☛ The amount of powder is controlled by the weight sensor, and there are powder blocking devices on both sides to reduce artificial powder return.

**Double-layer fan cooling device**  
 ☛ Fast cooling, improve efficiency.

**Smart Operation Panel**  
 ☛ The temperature, time, and speed are clearly visible and can be set freely and the setting is convenient and the display is accurate.

**Automatic Take-up System**  
 ☛ No artificial powder shaking improve production efficiency.

**Automatic Shaking Powder**  
 ☛ No artificial powder shaking improve production efficiency. Flap-type powder removal, adjustable speed.
